

**RESIDENT SUPERVISION DOCUMENTATION FORM**  
 Yale Pathology Residency Program

Resident: \_\_\_\_\_

**SURGICAL PATHOLOGY**

PGY1 residents on the Surgical Pathology rotation must demonstrate competency in dissection and description of specimens

- Direct supervision and satisfactory performance is required for the resident in their three initial dissections in each of the listed categories prior to attempting these dissections with only indirect supervision; supervisors should initial the form
- Pathologists' Assistants, qualified Senior Residents, or Faculty provide direct supervision and assess quality of gross dissection
